Skills

Languages: Java, JavaScript, HTML5, CSS3

Frameworks/Technologies: React.js, Next.js, React Native, Angular, Node.js, Express.js, Redux, Tailwind CSS, MUI

Databases: MongoDB, SQL

Developer Tools: VS Code, npm, Git, GitHub, Postman

Deployment: Netlify, Vercel

Other Skills: REST API Integration and Design, Data Structures and Algorithms, Object-Oriented Programming (OOP), Problem-Solving, Familiar with C++ and C

Experience

Freelance Full Stack Developer

December 2025 – January 2026

Dukaan Dost

Maharashtra, India

- Designed and developed a full-stack **order management and dispatch automation system** for a Maharashtra-based company.
- Built end-to-end workflows for order creation, status tracking, and automated dispatch processing using the **MERN stack**.
- Implemented secure REST APIs, role-based access control (RBAC), and real-time order status updates to streamline operations.
- Automated backend workflows to reduce manual operational effort and dispatch delays, improving overall process efficiency.
- Collaborated directly with business stakeholders to gather requirements and deliver a production-ready solution.

Software Engineer

September 2025 – Present

UClean

India

- Working as a Software Developer on production-grade web applications used by internal teams and franchise partners.
- Developing and maintaining scalable frontend and backend features using modern JavaScript frameworks and REST APIs.
- Collaborating with product, operations, and QA teams to deliver stable releases and resolve production issues.
- Optimizing application performance, system reliability, and overall user experience through continuous improvements.

Software Development Engineer (SDE)

July 2025 – September 2025

Remassis

India

- Promoted to Software Development Engineer based on performance and ownership of critical modules.
- Led feature development across frontend and backend components of a client-based Learning Management System (LMS).
- Implemented optimized APIs, improved data handling, and enhanced role-based access control mechanisms.
- Contributed to architectural discussions and supported junior trainees with code reviews and guidance.

Software Developer Trainee

December 2024 – July 2025

Remassis

India

- Worked as a Full Stack Developer on a MERN-based Learning Management System focusing on course and user management.
- Developed secure authentication workflows including login, password reset, and role-based access control (RBAC).
- Built responsive dashboards with analytics features for administrators and learners.
- Implemented automated email notification systems to improve user communication and system alerts.
- Collaborated with senior developers to ensure scalable backend services and clean code practices.

Freelance Full Stack Developer

August 2024 – December 2024

Datatribe (Startup)

- Delivered end-to-end full stack features for a startup in a fast-paced, requirement-driven environment.
- Built reusable frontend components and integrated backend APIs for business workflows.
- Worked directly with founders to gather requirements and deliver production-ready solutions.
- Improved application performance and maintainability through refactoring and optimization.

Full Stack Developer Intern

May 2024 – August 2024

Siteup

Jamshedpur, India

- Developed and maintained full-stack web applications, improving application speed by 20%.
- Designed reusable UI components, reducing development effort by 25%.
- Debugged and resolved critical issues, lowering user-reported bugs by 15%.
- Followed best practices in clean code, testing, and deployment workflows.

Projects

- Life & Launch Full-Stack Blog Website** | *Next.js, Tailwind CSS, Axios, React-Toastify, Mongoose, Nodemailer* | **Link**
- Developed a fully functional blog website with **Next.js** and **Tailwind CSS**, featuring blog categories, search functionality, and email subscriptions.
 - Created a secure **admin dashboard** for streamlined content management, including post creation, updates, and deletion.
 - Integrated **Nodemailer** for email notifications and **React-Toastify** for real-time user feedback.
 - Used **Mongoose** with MongoDB for data handling and **Axios** for efficient API requests.
- Chit-chat** | *React.js, Node.js, Express.js, MongoDB, Material-UI, Redux Toolkit, Cloudinary*, | **Link**
- Built **Chit-chat**, a social media platform leveraging **React.js** for frontend development and **Node.js** with **Express.js** for backend services. Implemented features for user account management, including post creation, image uploads, and interactive functionalities. Increased user engagement by 40% through these enhancements.
 - Integrated **MongoDB** for database management, **Material-UI** for responsive design, **Redux Toolkit** for state management, and **Cloudinary** for image storage and processing. Enhanced app performance by 35% and reduced image load times by 50%, resulting in a 25% increase in user satisfaction.

Education

Chaibasa Engineering College <i>Bachelor of Technology in Electronics and Communication Engineering (7.85 CGPA)</i>	Chaibasa, India <i>2020 – 2024</i>
Ssnms Inter College <i>Intermediate in Science (63.6%)</i>	Dhanbad, India <i>2017 – 2019</i>

Certificates

- Udemy**
- React, NodeJS, Express and MongoDB - The MERN Fullstack Guide (Certificate Link)
 - The Complete 2024 Web Development Bootcamp (Certificate Link)
